The Advance

Local Garage Man Had Bad Accident

Leonard Cooley, partner of the local Service Garage, had a narrow escape from losing his life, last Friday, Nov. 24. While he was engaged in repairing a motor car at Lanfine in the National Elevator at that point, the jack which was holding up the body of the car broke, causing the car to fall on and pin Mr. Cooley below it. He was first struck a glancing blow on the head and then crushed on his left shoulder. It was some time before he regained consciousness from the shock. Dr. Esler, who was called from Cereal remained up all night with his patient in Lanfine and on Saturday Mr. Cooley was taken to the Cereal hospital. It was found that his collar-bone was broken, also a bone of his left shoulder.

Mr. Cooley returned to his home here Wednesday of this week and is feeling as well as can be expected.

Alberta Exhibit Takes, the Senior and Grand Titles, Toronto Royal Show

TORONTO, Nov. 25.—Strathmore Wayne Sylvia of the C. P. R. farm at Strathmore, was declared senior and grand champion at the Canadian Royal Show Saturday with Maytag farm's New ton Iowa reserve champion.

This is the first time the female Holstein grand championship has come to Western Canada and is more important on account of the outstanding American herds, Maytag exhibited by W. in cousin Board of Control, and Osbornale farms, who swept the boards at the National Dairy show of the United States and shown at Toronto for the first time.

St. Julien Coquette, of the C. P. R. farm at Tilley, won first in the Percheron brood mare class.

In the dual purpose Shorthorns senior and grand championship went to Alexander MacLaren, of Buckingham, Que., while junior championship went to the Alberta department of agriculture with Dominator, a two year old, which also won the class for two-year old bulls.

In the market cattle class, grades and cross-bred, Ontario breeders carried off most of the honors, but the Canadian Pacific Railway, department of resources Calgary, took two second prizes, on steer or heifer, 1,000 to 1,200 pounds, and steer or heifer, over 1,200 pounds.

Prince Among Winners

The Prince of Wales had an animal from his High River ranch among the winners in the steer or heifer under 800 pounds class.

Holstein cattle shown by Hays and Co., of Calgary, Friday, captured first in one class and a second and third in another. The first was registered in the senior heifer yearling division. C. P. R. Supply farm, Strathmore, placed second in the two-year-old heifer to milk class.

Other important Holstein wins by the Strathmore farm included third in graded herd and second in dairy herd, both the highest placings in the two classes by any Canadian entry.

Burglars Are Sentenced

Three men by the names of A. Andibuk and son P. Andibuk and Geo. Consville, all of Lanfine district, who had been away threshing at Didsbury, and while on their return journey stopped at Chinook, and after midnight on Monday, October 16, they broke into the barber shop and pool hall owned by H. W. Butts and took goods amounting to over \$50 also a small amount of cash. By investigation made through several sources, which resulted in policeman Murphy of Oyen and Mr. Butts making a search of Andibuk's farm and the stolen goods in part were discovered hidden in the ground. Geo. Consville was sentenced to 6 months in Lethbridge jail P. Andibuk to 3 months and A. Andibuk, the father was given 1 year providing restitution has not been made to Mr. Butts.

See Canada Gaining By U. S. Policy

LONDON, Nov. 25.—That President Roosevelt's policy of depreciating the United States dollar in order to raise commodity prices will give Canada a heaven-sent opportunity to release herself from undue financial economic dependence on her great neighbor to the south is the interesting forecast given me in London today by banking and economic authorities.

They explain their viewpoint in this fashion. Just as the United States, when Europe's currencies were violently fluctuating and depreciating after the Great War was able, by means of her stable dollar, to buy up her own securities held in foreign countries and become a creditor instead of a debtor country, so Canada, by pursuing Prime Minister Bennett's declared policy of sound finance should be able when the storm career of United States currency has settled into a calm on the international exchange, to buy back her bonds and stock held abroad and become the mistress of her own economic fortunes.

Incidentally, the cheap rate at which the Dominion will be able in future to meet interest commitments on loans in New York is not overlooked and the dumping clause decision against American imports is recommended here as a model for the British government to imitate.

Agricultural Society To Hold Annual Meeting

Notice is out, that on Saturday, December 9th at 2:30 o'clock in the afternoon, the Chinook and District Agricultural Society will hold its Annual Meeting at the home of Mrs. W. A. Todd, secretary of the society.

Hays and Company were right behind, winning fourth in graded herd and eighth in dairy herd. In junior heifer calf, Hays and Company had first and sixth in the senior calf. The C. P. R. were 11 and 12 in senior calves and sixth in junior calves.

CHINOOK ADVANCE

Will Inflation Benefit?

One of the many results flowing out of the Great War was the development of a narrow nationalism which found expression in many ways and has had a profound effect upon not only national policies but in forms and methods of government. Out of the Great War grew an economic warfare more intense than in the years that preceded that titanic struggle. That economic war led to the use of tariffs, quotas, and other trade restrictions on a scale hitherto unknown. All nations, engaged in it, some reluctantly, but because they were forced into it by the actions of other nations.

As this economic warfare progressed it inevitably led to still another war—a war of exchange. The value of the currency of one nation rose or fell in relation to the value of the currencies of other nations, and as it rose or fell it directly affected the trade of the nations as well as the whole financial structure of all, and the ability of one group of people to meet its obligations to another group.

From this it was but a short step to a third form of warfare now being waged—a war of currencies. Some nations, most of them, abandoned the gold standard, but a few still adhere to it. Then began the struggle of the currencies. Abandoning the gold standard was a measure of inflation. The next step was the more or less gradual reduction of the value of national currencies in terms of gold, the object being to raise prices which had fallen to a disastrously low ebb. In other words, policies of inflation were embarked upon.

But always in war, no matter the nature of the struggle, one party or country always endeavors to outdo the other. It is so in physical warfare; it is true in any tariff war. It is equally true in a war of inflation. When one country embarks upon a policy of inflation, even though it be primarily as a matter of domestic concern alone, it immediately has repercussions in other countries. So when one country proceeds with a policy of inflation, and persists in it, sooner or later other countries will follow suit, and, in following suit, will, of course, seek to go other countries "one better."

Whatever may be said in favor of a degree of inflation on the one hand, or deflation on the other, to most changing economic conditions—and a country engaging in either the one policy or the other always proceeds on the assumption that great care will be exercised, and the policy fully controlled to prevent it getting out of hand—the net result invariably is that it does get out of control, and the final stage of affairs is made worse rather than improved, and the process of financial recovery made more difficult and of longer duration, with losses made heavier.

A policy of inflation is being applied in the United States at the present time. As always, President Roosevelt is anxious to keep it within bounds, but there are great and powerful influences at work to carry it far beyond what the President desires and has in mind. Can the situation be controlled? When Congress re-assembles, indications are not lacking that great pressure will be applied to put the printing presses to work turning out billions of paper money, in addition to the present inflationary policy of decreasing the gold value of the dollar. And Congress is still supreme in the United States. It conferred very extensive emergency powers upon the President, giving him almost dictatorial powers. But it can withdraw those powers, or it can itself go much farther than the President and his advisers deem it wise to go.

And Canada cannot be indifferent to or prove immune from the effects of United States policy, whatever it may be. Our trade and other relationships are too closely interwoven, and our financial undertakings, both public and private, so entwined that Canada will be directly affected. Whether we like it or not, Canadian policy must, of necessity, be governed to some extent, possibly a large extent, by United States policy in this matter.

Inflation and deflation, and their consequences, may be traced throughout the course of history, dating back to the years B.C., and the lessons of history teach us that inflation appears to have generally, if indeed, not always, ended in disaster. There was at first always the intention of control, but the movement usually ended by breaking all bounds. Increased purchasing power through inflation is only temporary; higher prices stimulate over-production and check consumption; new debts appear, and a return to stability is increasingly difficult.

The depression beginning in 1929 was preceded by wild speculation, encouraged and made possible by an expansion of credit, but encouraged and stimulated by installment selling on a scale never before witnessed. Many were the warnings issued at the time this wholesale expansion of credit, and unprecedented installment buying, was in progress. It could be seen by anyone willing to pause and consider that such installment buying,—all based on credit,—could not go on indefinitely; that a point must be reached when and where millions of individuals committed to installment payments would reach the end of their purchasing power, having used up all their credit and pledged all their resources. The saturation point was reached late in 1929, and the crash followed.

People had bought land, houses, motor cars, radios, equipment of all kinds, and many luxuries all on the promise to pay, weekly, monthly, yearly installments. The time came when they could make no more commitments, so production stopped, and with its stoppage, millions were thrown out of employment and were thus placed in a position where they could not meet their deferred installment payments. Prices fell, and everybody sustained losses.

Inflation might temporarily raise prices, just as speculation and installment buying,—which, after all, was inflation pure and simple,—did raise prices. But one form of inflation can not overcome the evils caused by another form of inflation.

Cause Of Weather Changes

Scientists Find Evidence That Electricity Responsible For Variations

Evidence that electricity controls weather all over the world was announced to the National Academy of Sciences at Cambridge, Mass. The electric control runs in a definite cycle, causing rains, droughts and heat every 23 years, with comparatively minor variations for individual localities. This electric cycle comes from the sun.

"The weather of 1936," said this report, will have the same general pattern—differing, of course, in day by day details—as the weather the world has experienced in 1933. "Next summer would have the same general weather pattern as the year experienced during the summer of 1911. The discovery marks a long step forward toward the day of long-range forecasting."

Woman's love for ribbons may be accredited to her having originated from a rib.

Seizure Of Einstein's Property Is Ordered

Everything To Be Confiscated In Favor Of Germany

Secret police have ordered the seizure of all property of Dr. Albert Einstein, famous physicist, and Mrs. Einstein by virtue of the law for confiscation of Communist property.

Legal notice of this seizure was served in the official gazette Reichsanzeiger which listed "all mobile and immobile goods, particularly bank accounts and other deposits" to be confiscated in favor of the Prussian state.

Prince George Was Host

The Prince of Wales and Prince George were present at a dinner in London recently in celebration of the passing of the Factory Act. Prince George, in his capacity as a Home Office Inspector, acted as host to his brother.

The 40-hour week probably will be adopted in Italy.

A Tired, Worn Out Woman Can't Make a Happy Home

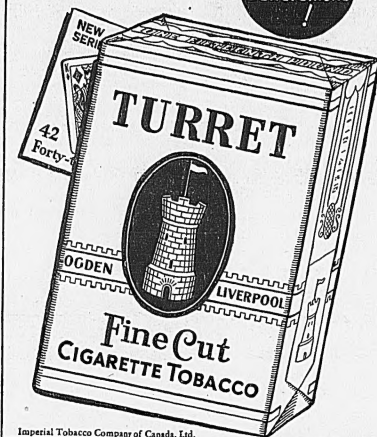

There is no happiness in the home when the mother is sick and worried by the never ending household duties. She gets run down and becomes nervous and irritable. She has shortness of breath, faint and dizzy, can't sleep, and gets up in the morning feeling as if she went to bed, and is downhearted and discouraged.

Milburn's H. & N. Pills will soon convince women it is not necessary to suffer, as they build up the nervous system and bring back the former health and vigor.

All packages now contain more tobacco.

New Kind Of Glass

Tests Made In Germany Show That It Neither Splinters Nor Breaks

Glass which neither splinters nor breaks has been produced in Germany. In tests made recently three adults used a long narrow sheet as a seesaw. The glass shows an elasticity similar to that of highly flexible steel. A heavy steel ball dropped from a height of 10 feet left no impression. The glass is produced by a special heating process. Railway and automobile officials are interested in the product.

THREE ILLS ROUTED

Health Tip From Woman Of 67

"For headache—constipation—rheumatism—I use Kruschen. And since I have used it, I am in very much better health. In fact, I hardly ever wake with those bad headaches and that general feeling of lassitude. Kruschen has helped me beyond words. I am 67 and feel young."—thus writes Mrs. M. G. Q. "It is reasonable to ask why it is that headaches, constipation, and rheumatism all yield so completely to Kruschen? What is the secret of Kruschen's effectiveness against these different complaints? The secret is an open one. It is revealed in the analysis on the bottle—for physicians and everyone else to see. Six vital, mineral salts. That is the secret. Each of these six salts has an action of its own. Where one cannot penetrate another can—and does. Stomach, liver, kidneys and digestive tract are all benefited and toned up to a top-notch condition of efficiency."

Belgium Closing Four Prisons

Crime Seems To Have Fallen Off Since War

Crime has fallen off to such an extent in Belgium since the armistice that four of the thirty-one prisons are to be closed. Prison officials attribute this state of affairs to the leniency of the courts and the operation of the first-offenders act. They say also that miners who formerly went to prison now go to the reformatory, which is not listed as a prison.

Low Water In St. Lawrence

Formation of a commission to investigate the causes of low water levels in the St. Lawrence ship channel and the port of Montreal and to recommend remedial measures for low water which prevailed this season was urged on the Dominion government by J. W. Nicol, president, at a meeting of the Shipping Federation of Canada.

Study Bees In Glass Hive

School pupils at St. Louis are able to watch honey bees in doing their work inside a glass hive at the educational museum of the Board of Education here. The bees leave their hive through a pipe which leads outside the museum building.

Collects Songs As Hobby

L. H. Peesvey, of Conroe, Texas, has collection of old songs and ballads as his hobby. He already has gathered more than 11,000 in a scrap book that weighs 100 pounds. The collection steadily is growing.

A record consignment of cattle serum weighing nearly 2½ cwt., was sent by air from Berlin to England, to combat an outbreak of foot and mouth disease in Cheshire.

Refuses Remuneration

Member Of Irish Dail Eireann Will Not Take Pay

Frank MacDermot, a descendant of King Roderic O'Connor, refuses any remuneration for acting as a member of the Dail Eireann, the parliament of the Irish Free State. When the department of finance insisted on presenting the \$150 a month salary because, it argued, the amount was really an allowance toward expenses, MacDermot said he would buy Irish sweep tickets with money in the name of Roscommon County Council, and if lucky the winnings will be used to benefit Roscommon farmers either through lower taxes or welfare projects.

Claims Fastest Train

Average Speed Of Germany's "Flying Hamburger" 78 Miles An Hour

Germany claims to have the fastest railroad service in the world. The "Flying Hamburger," famous motor-driven rail Zep, in regular service between Berlin and Hamburg, attains an average speed of 78 miles an hour, whereas the fastest British train, running between London and Swansea, averages 72 miles, and the fastest French express, Paris-St. Quentin, only 66 miles.

During experiments conducted by the German federal railroad company with another motor-driven train, speeds up to 84 miles an hour have been attained.

Hubby (reading)—"Y'know, I don't like all this metaphorical stuff. I wonder what exactly this writer feller means by 'gems of thought'?"

Wife—Oh, something like that ring you're always promising to buy me.

Children's Coughs and Colds

Go Overnight

Favor Was Returned

Chinese Mission Sends Money To Toronto Church For Poor

Toronto church people, accustomed to contributing money to Chinese missions, have a return favor. The Cheng Tu parish of the Church of England in West China, has sent a gift to the Church of the Resurrection in Toronto for the "poor and needy for the parish." The gift, amounting to \$35 in Chinese money, was presented by Rev. H. W. K. Mowll, former Bishop of West China and Archbishop-elect of Sydney, Australia. The congregation which packed the little church breathed a prayer of thanksgiving as the Archbishop announced his gift from the Chinese Christians.

Gas In The Stomach

Gas in the stomach, belching, sour water brash, pain after eating, etc., can be overcome within three minutes if you will take a little Bisurated Magnesia in water after you eat. The ordinary Bisurated Magnesia which you can get at any drug store will correct acid stomach and stop acid indigestion immediately. Try it and see.

Currency Of Albania

Is Very Cosmopolitan

Smallest Nation In Balkans Uses Gold Of Other Nations

The tiny kingdom of Albania, smallest in the Balkans, is the only country in that region which still pays its officials in gold, and where one may obtain gold in exchange for paper. A general gap of incredulity was noticeable in Sofia the other day, when the Albanian Bishop Vissarion, representing his nation at the international conference for the union of International Friendship through the churches, calmly pulled a fat purse from under his cassock and paid his hotel and other expenses in hard yellow coin.

His Grace explained that Albania, having no national currency of its own, is obliged to pay its officials on the basis of the gold franc. But since that pre-war phenomenon is rare to-day, English sovereigns, Turkish piastres, Italian lire, and even United States \$5 and \$10 gold pieces are employed in addition to the old "Napoleons" or "Louises."

Until the United States went off the gold standard, its paper dollar used to be regarded as the most solid currency circulating in the Balkans, and was employed to replace gold as a medium of exchange. Since its drop, however, the Albanians and others have gone back to the precious metal itself.

In all other Balkan countries the governments have confiscated all gold, replacing it by depreciable local paper currency. Heavy penalties are imposed on those found trafficking in gold, or taking foreign exchange out beyond the borders.

Russia Builds Giant 'Plane

A giant airplane which can carry 128 passengers in addition to the pilots and crew has been built at Khar'kov in Soviet Russia. This great aircraft is known as the K-7, and has 16 compartments fitted with four sleeping berths in each. For day flying each berth can be converted into two seats. There is also a cabin with seats and sofas, and a promenade in the middle of each wing.

Zoologists Are Puzzled

Cannot Identify Strange Water Animal Caught In St. Lawrence

A strange water animal caught on a worm-baited hook in the St. Lawrence River by Jack Theravin of Montreal, is defying all efforts of amateur zoologists to give it a zoological classification.

It is fourteen inches long, has lizard legs, a ruff about its neck, three pairs of lungs worn outside, dull red and orange spots on its otherwise dark skin and a short tail.

British Commonwealth

Closer Co-Operation Needed Between British Empire Organizations

Closer co-operation between the societies engaged in the advancement of the interest of the British Commonwealth, will be further explored as a result of a meeting addressed by J. H. Thomas, Secretary for Dominions, and attended by representatives of 24 organizations. These included the Royal Empire Society, the Overseas League, the British Empire League and the League of Empire.

Within three years the number of Old Country farms with electrical equipment has doubled, and there are now over 5,000. In Yorkshire alone there are 700 electrified farms.

Dunblane, Scotland, recently celebrated the 700th anniversary of the coming of the Bishop Clemeat.

The roll call will be "suggestions for Christmas gifts. This being the annual meeting of the W. I. all members are requested to be present.

OCEAN FREIGHT RATES FOR LIVE CATTLE

There were no regular boats previous to June, 1921, and ocean freight rates on live cattle were anywhere from \$50 upwards. From June to August, 1921, inclusive, the rate ranged from \$40 down to \$35; from September to December, inclusive, from \$30 to \$25. In 1922 the rate further dropped from \$25 to \$20, and in 1923 from \$20 to \$15, and up to \$20 again. The \$20 rate prevailed until the end of February, 1927, with reduction of 10 percent on light cattle from January 1, 1926. From March 1, 1927, until early in 1932, the rate was \$15 per head, with discount of 10 percent on cattle, under 1,000 pounds. In February, 1932, the rate from West St. John was reduced to \$12 per head, with the same discount, and later extended to April-May shipments from Montreal. This rate continued throughout 1932 and prevails—Dominion Department of Agriculture.

See Us About Your Printing Needs

J. Bayley, of Laughlin district, met with a bad accident on Friday while branding a colt. The animal kicked him on the knee, severing some of the ligaments. He was taken to Cereal hospital, where Dr. Esler put his leg in a plaster of Paris cast. Mr. Bayley will be laid up for some weeks.

The agent for the Canadian National Railways announces that on December 8 and 9 the final cent-a-mile bargain trip of the year will be operated as far as Calgary. Tickets will be good on train No. 9, December 8 and 9 and, returning from Calgary, the tickets will be good on any train up to and including 6:40 p. m. Monday, December 11.

The Millham Bros. of Hughenden, are in town this week. They are taking back with them horses to feed for the winter, for farmers in this district.

Raymond Osterberg who has been at Vermillion for some months arrived on Wednesday to the home of his parents, Mr. and Mrs. A. Osterberg, of Rearville.

The farmers are still busy this week hauling out green feed from town, which was shipped in from the northern districts.

The roads are still very bad although considerably improved since last week.

Former Resident Hurt

J. C. Farrow of Calgary, met with a serious accident lately, in Lethbridge that will keep him in bed for many weeks. While being pulled up the side of the Pool Ellevator on a board scaffold for the purpose of fastening lightning rods to the building, he suddenly felt one rope give way and himself falling rapidly downward. The next moment he crashed on to the frosted shingles of the driveway roof and was half stunned. He tried to hold his footing but could not and down he went some fifteen feet to the frozen ground striking on both heels. He was brought to the Cereal Hospital where he is now in a very painful condition with the bones of both heels broken and driven upward into the flesh of his ankles. At this date, Monday, Dr. Esler is waiting until some of the swelling goes down before he operates. Mr. Farrow is an old-timer in this district and well known to the early settlers. He homesteaded 10 miles north of Chinook in 1912 and was familiarly known as Bobbie Farrow. This is hard luck for Bobbie.

(Cereal Recorder, Nov. 23)

Peyton News

Mrs. Bjornrud entertained to four tables of Five Hundred last Wednesday evening the occasion being Miss Louise Robison's birthday. Miss Ella Broston and Mrs. Bjornrud won the prizes for the ladies, while Carl Lee and R. Peterson won the prizes for the gents. After the delicious lunch a delightful time was spent in playing games, and music Johnny Christanson was very busy taking the ladies up in his airplane, but the ladies demand a parachute next time.

There was a fairly good sized crowd at Peyton last Friday. The winners for cards were Mrs. F. Hobson and Miss Louise Robison. Gents: E. Peterson and F. Hobson.

Mr. and Mrs. Bjornrud were dinner guests at the Warren home on Sunday.

Wedding Bells

A double wedding was solemnized on Saturday, Nov. 25 at 2 o'clock p. m. at the Mennonite Church, north west of Chinook when Miss Neta Dick, step daughter of Mr. Peter Martens was united in marriage to Mr. John Neufeld, son of Mr. Henry Neufeld, Chinook; and Miss Lena Wiebe, foster-daughter of Henry Neufeld, was united in marriage to Mr. Jacob Reitzel of Rosemary, Alberta, with Rev. William Martens officiating. The church was nicely decorated for the occasion. A fine wedding supper was served at the close.
